|                                                                                                       |                                                                                                                                               |                                                                                                                            |                                                                                                                     |                                                                                                                 |

## How to read the spare parts list :

- The list is grouped according to construction modules. A module is a group of parts fulfilling in the machine a concrete function. The abbreviated module designation is given in the left top corner both of the drawing and of the text. The complete module designation (as given in the delivery note) is related to the abbreviated designation as follows:

Abbreviated                      Complete  
MXXX                      =              S980 000XXX

Items in the order are presented under complete code (ten-digit number)

- This catalogue is common for a number of machine models whose type designation agrees with the first five digits printed on the catalogue cover. The complete type designation of the machine is then used for identifying the modules (lists of parts) mounted on the machine in question.

The complete type designation has the following structure:

XXXX              -              XXX              -              XXX  
Class              Subclass              Sewing category

The contents is divided into sections corresponding to this structure. A table situated at the head of each section gives information on which modules are applied to a particular machine model. The machine class and subclass are printed on the label situated on the machine bed plate and visible with tilted machine head. The sewing category is indicated on the tag supplied together with the machine.

- All items, the complete code (ten-digit number) of which are presented in the tables there is possible to order as spare parts.
- The symbol  shows that the part is to be lubricated by grease (used for the machine assembly).
- The symbol  shows that the part is glued (used for the machine assembly).

Parts marked in the drawings with the symbol \* and with the remark \* SPARE PARTS SUPPLIED WITH THE MACHINE are attached with head of machine.

## CONTENTS :

### Modules of machine head and of enclosed accessories

| Abbreviated module No.                              | Ordering (complete) module No. | Denomination                                      | Table No. |
