n. 118

This spare parts catalogue is made up of two parts: in the first one, called "basic catalogue", all the details of most representative head are listed (the first head listed on the cover); the second one includes the details of the other main heads or derived ones, which are different from that of the basic catalogue.

The main heads are listed on the cover in bigger lettering to distinguish them from the derived heads.

When you consult the catalogue will you please note that:

1. all parts which cannot be supplied by themselves are not indicated alone, but shown together with the group to which they belong;
2. the references of the pictures of the parts making up the group are usually put in brackets.
In some cases, however, when their grouping is not possible, the numbers of the various parts in the tables are marked with the same particular sign with which the whole group is indicated.
3. In the tables of the other heads there are listed all the parts not fitted on the head in the basic catalogue.
These tables are marked at the top right-hand corner with the symbol of the head which the table refers to.
The drawings in this group of tables show only the parts which are new or basically different from those fitted on the most representative head in the catalogue.
The parts which are represented only by the symbol but not illustrated keep the same figure number as the corresponding parts shown in the basic catalogue.
The parts which are common to all the heads in the catalogue are listed only in the first group of tables.
Parts marked "annulled part" are those not fitted on the head which the table refers to.
When an assembly has been annulled only the assembly symbol is specified, but all the parts forming the assembly must also be considered annulled.
For each head the table for sewing parts is always repeated completely.

To make it easier to locate the parts, the reference numbers of all of those shown in the basic catalogue are listed together with the number of the table in which they are to be found.

NEEDLES

The needles are marked with system and size; the size indicates the average diameter in hundredths of a millimeter.

The system and size of the needle are shown on the packet as well as on the needle itself.

When ordering please state symbol, system and size. If you have doubts, enclose a sample needle or an empty packet with your order.

ATTENTION

When ordering spare parts always state the serial number of the machine, the symbol of the part in question and the description given in the catalogue.

Ce catalogue "pièces détachées" est formé de deux parties: la première appelée "catalogue base" comprend toutes les pièces montées sur la tête la plus significative (celle en tête de la liste de couverture), la seconde comprend toutes les pièces montées sur les autres têtes de base ou dérivées qui sont différentes de celle du "catalogue base".

Les têtes de base sont énumérées sur la couverture, en caractères plus grands que les têtes dérivées.

Lorsque l'on consulte le catalogue, se souvenir que:

1. Toutes les pièces qui ne sont pas fournies séparément mais qui font partie d'un groupe, ne sont pas indiquées séparément.
2. Les symboles des pièces qui forment un groupe sont regroupés entre parenthèses. Cependant, lorsque ceci n'a pas été possible, les symboles, qui dans les tables d'illustration correspondent aux pièces, sont suivis du même signe particulier qui indique le groupe tout entier.
3. Dans les tables relatives aux autres têtes, nous avons indiqué toutes les pièces différentes de celles de tête du "catalogue base" ou qui ne sont pas montées sur ces dernières. Ces tables portent, en haut à droite, le symbole des têtes auxquelles elles se réfèrent (pour les dérivées, le symbole de la tête de laquelle elles dérivent est indiqué entre parenthèses).
Les dessins de ce groupe de tables représentent seulement les nouvelles pièces ou celles qui sont différentes des pièces montées sur la tête la plus significative du catalogue.
Les pièces indiquées par un symbole, mais qui ne sont pas illustrées, gardent le même numéro de dessin que celles correspondantes, illustrées sur le catalogue base.
Les pièces communes à toutes les têtes du catalogue, sont indiquées seulement dans le premier groupe de tables.
Les pièces définies comme "pièces annulées" sont celles qui ne sont pas montées sur la tête à laquelle se réfère la table. Dans le cas de l'annulation d'un groupe, nous indiquons seulement le symbole du groupe, mais toutes les pièces qui forment ce groupe sont annulées.
Pour chaque tête est toujours indiquée la table se référant aux organes de couture.

Pour faciliter la recherche, le catalogue renferme l'index numérique de toutes les pièces illustrées avec indication de la table dans laquelle elles sont indiquées.

AIGUILLES

Les aiguilles se différencient par le système et la grosseur, laquelle indique le diamètre moyen exprimé en centièmes de millimètre.

Le système de l'aiguille et sa grosseur, sont indiqués non seulement sur le sachet mais également sur l'aiguille.

Dans la commande, préciser, en plus du symbole, le système et la grosseur des aiguilles désirées. En cas de doute, joindre une aiguille comme modèle ou un sachet vide.

ATTENTION

Dans la commande de pièces détachées, indiquer toujours le numéro de la machine, le symbole de la pièce et la dénomination officielle mentionnée sur le catalogue.

SIMBOLO SYMBOL SYMBOLE	CARATTERISTICHE TESTE	MACHINE HEAD FEATURES	CARACTERISTIQUES TETES
268-00-2MD-19	Per fissare al sacco di fodera delle tasche dei pantaloni, le due strisce di tessuto riportate sull'apertura della tasca stessa, in una sola operazione. Indicate anche per orlature con controllo visivo della copertura dell'orlo, mediante guida a squadra spostabile e per applicazione di rinforzi su slips, mutandine ecc. ecc. in tessuti a maglia o felpati. Esegue una cucitura speciale a due ranghi a punto a catenella doppia (401) con copertura superiore. Con differenziale.	For attaching, in one operation only, to the pocket lining of trousers, two facings visible on the pocket opening. Suitable also for hemming with visual control of hem-covering seam by means of a movable edge guide and for attaching gussets to briefs, panties, etc. made from knit or fleecy-lined fabrics. This machine makes a special seam with two rows of double locked chain stitching (seam No. 401) with top covering. With differential feed.	Pour appliquer à la doublure des poches des pantalons deux bandes de tissu rapportées sur l'ouverture de la poche même, en une seule opération. Elle est également employée pour exécuter un ourlage avec contrôle visuel de l'ourlet à l'aide d'un guide à équerre déplaçable, ainsi que pour appliquer des bandes de renfort sur des slips, culottes, etc. en tissu à mailles ou molleton. Elle exécute une couture particulière avec deux rangées à point de chaînette double (401) avec couverture supérieure. Avec transport différentiel.
268-00-2MD-31	Come la 268-00-2MD-19 ma con distanza aghi 6 mm.	Same as 268-00-2MD-19, but with 6 mm needle gauge.	Comme la 268-00-2MD-19, mais avec écartement aiguilles 6 mm.
