**HIGH SPEED FEED-OFF-THE-ARM  
MACHINES**

[www.college-sewing.co.uk](http://www.college-sewing.co.uk)

## FOR E W O R D

These latest improved UNION SPECIAL high speed Class 35700 and 35800 machines offer many advantages on felling operations on various types of garments such as men's dress, sport, work and uniform shirts, children's play suits, men's shorts and pajamas, overalls, jackets, trousers, coats, and similar garments.

A new light weight presser bar mechanism makes them lighter running and smoother operating, practically eliminates marking, and reduces pressure required to lift the foot.

Increased speed has been made possible by design changes and a continuous running rotary driven oil pump which assures an adequate supply of filtered oil to the two main reservoirs where it is automatically fed to all bearings.

It is our constant aim to furnish carefully prepared information which will enable our customers to secure all possible advantages from the use of UNION SPECIAL machines. The following pages illustrate and describe the parts for Styles in Classes 35700 and 35800.

UNION SPECIAL representatives will be found in all manufacturing centers, ready to cooperate with you to plan and estimate requirements.

**UNION SPECIAL CORPORATION**

## IDENTIFICATION OF MACHINE

Each UNION SPECIAL machine is identified by a Style number which is stamped into the name plate on the machine. Style numbers are classified as standard and special. Standard Style numbers have one or more letters suffixed, but never contain the letter "Z". Example: "Style 35700 AK". Special Style numbers contain the letter "Z". When only minor changes are made in a standard machine, a "Z" is suffixed to the standard Style number. Example: "Style 35700 AKZ".

Styles of machines similar in construction are grouped under a Class number which differs from the Style number, in that it contains no letters. Example: "35700".

## APPLICATION OF CATALOG

This catalog applies specifically to the Standard Styles of machines as listed herein. It can also be applied with discretion to some Special Styles of machines in Classes 35700 and 35800. Parts used on the pedestals are listed in Catalog No. 95 R. Reference to direction, such as right, left, front, back, etc., are given from the operator's position while seated at the machine. Operating direction of handwheel is counterclockwise.

### STYLES OF MACHINES IN CLASS 35700

Feed-Off-The-Arm High Speed, Low and High Throw Machines, Two and Three Needles, Left Needle in Front, Light Weight Presser Bar Mechanism, Adjustable Looper Avoid Motion, Periphery of Cylinder at Needle Bar 6 1/2 Inches, Space in Front of Needles 8 Inches, Single Disc Take-ups for Looper and Needle Threads, Automatic Enclosed Type Oiling System and Filter Type Oil Return Pump, Visual Sight Oil Action and Supply Gauges.

\*35700 AK Low throw, two needle machine for felling house dresses, dress shirts and for similar operations on light to medium weight material, standard gauges Nos. 8, 10, 12 and 16. Seam Spec. 401-LSc-2.

\*35700 AL High throw, two needle machine for felling sport shirts, uniform shirts, children's play suits and for similar operations on medium to heavy weight material, standard gauges Nos. 12 and 16. Seam Spec. 401-LSc-2.

\*35700 AM Low throw, two needle machine for felling sport shirts, shorts, pajamas and for similar operations on light to medium weight material, tractor feed, standard gauges Nos. 8, 10, 12 and 16. Seam Spec. 401-LSc-2.

\*35700 AN Low throw, two needle machine for felling light weight wash and wear material standard gauges Nos. 12 and 16. Seam Spec. 401-LSc-2.

\*35700 BS High throw, three needle machine for felling work shirts, uniform shirts and for similar operations on medium heavy to heavy weight material, standard gauges Nos. 7 and 8. Seam Spec. 401-LSc-3.

35700 CK Same as 35700 AK, except prepared for Pedestal Installation.

\*35700 CL Same as 35700 AL, except prepared for Pedestal Installation.

\*35700 CM Same as 35700 AM, except prepared for Pedestal Installation.

\*35700 CN Same as 35700 AN, except prepared for Pedestal Installation.

\*35700 DS Same as 35700 BS, except prepared for Pedestal Installation.

\*DISCONTINUED - In most instances, component parts can be ordered for customer repair.

STYLES OF MACHINES IN CLASS 35800

Feed-Off-The-Arm High Throw Machines, Two and Three Needles, Left Needle in Front, Light Weight Presser Bar Mechanism, Adjustable Looper Avoid, Periphery of Cylinder at Needle Bar 6 1/2 Inches, Space in Front of Needles 8 Inches, Single Disc Looper Thread Take-up, Automatic Enclosed Type Oiling System and Filter Type Oil Return Pump, Visual Sight Oil Action and Supply Gauges.

\*35800 AC Two needle machine for felling the "in and out" seams of overalls and trousers, side and sleeve seams of coats and jackets, laundry bags and for similar operations on medium heavy and heavy weight non-sanforized material, standard gauges Nos. 16 and 18. Seam Spec. 401-LSc-2.

\*35800 AD Two needle machine for felling seersucker and for use on "in and out" seams of trousers and for similar operations on medium to medium heavy weight non-sanforized material, .025 inch step on right side, standard gauges Nos. 12 and 16. Seam Spec. 401-LSc-2.

\*35800 AV Two needle machine for felling "in and out" seams of overalls and trousers, side and sleeve seams of shop coats, denim jackets and for similar operations on medium heavy to heavy weight 2.00 to 4.00 yard (8 oz. to 4 oz.) non-sanforized material, standard gauges Nos. 16 and 18. Seam Spec. 401-LSc-2.

\*35800 AX Two needle machine for felling "in and out" seams of overalls and trousers, side and sleeve seams of shop coats, denim jackets and for similar operations on medium heavy to heavy weight 2.00 to 2.40 yard (8 oz. to 6 1/2 oz.) non-sanforized material, .070 inch step on right side, standard gauges Nos. 16 and 18. Seam Spec. 401-LSc-2.

\*35800 AY Two needle machine for felling "in and out" seams of overalls and trousers, side and sleeve seams of shop coats, denim jackets and for similar operations on medium heavy to heavy weight 1.55 to 2.20 yard (11 oz. to 7 oz.) sanforized and non-sanforized material, .094 inch step on right side, standard gauges Nos. 16 and 18. Seam Spec. 401-LSc-2.

\*35800 BQ Three needle upper roller feed machine for felling "in and out" seams of overalls, lined or unlined dungarees, mackinaws and trousers, side and sleeve seams of shop coats, denim jackets and for similar operations on medium to heavy weight non-sanforized material, standard gauges Nos. 8 and 9. Seam Spec. 401-LSc-3.

\*35800 BR Three needle upper roller feed machine for felling sides and sleeves of heavy weight denim jackets, blanket lined jackets, mackinaws, melton cloth coats, "in and out" seams of heavy weight overalls, dungarees and similar operations on heavy to extra heavy sanforized and non-sanforized material, standard gauges Nos. 8 and 9. Seam Spec. 401-LSc-3.

\*35800 BV Three needle machine for felling "in and out" seams of overalls and trousers, side and sleeve seams of shop coats, denim jackets, blanket lined jackets, mackinaws, melton cloth coats and for similar operations on medium heavy to heavy weight 2.00 to 4.00 yard (8 oz. to 4 oz.) material, standard gauges Nos. 8 and 9. Seam Spec. 401-LSc-3.

\*35800 BX Three needle machine for felling "in and out" seams of overalls and trousers, side and sleeve seams of coats, jackets and for similar operations on medium heavy to heavy weight 2.00 to 2.40 yard (8 oz. to 6 1/2 oz.) non-sanforized material, .070 inch step on right side, standard gauges Nos. 8 and 9. Seam Spec. 401-LSc-3.

\*DISCONTINUED - In most instances, component parts can be ordered for customer repair.

STYLES OF MACHINES IN CLASS 35800 (Continued)

35800 BY Three needle machine for felling "in and out" seams of overalls and trousers, side and sleeve seams of shop coats, denim jackets and for similar operations on medium heavy to heavy weight 1.55 to 2.20 yard (11 oz. to 7 oz.) sanforized and non-sanforized material, .094 inch step on right side, standard gauges Nos. 8 and 9. Seam Spec. 401-LSc-3.

\*35800 CC Same as 35800 AC, except prepared for Pedestal Installation.

\*35800 CD Same as 35800 AD, except prepared for Pedestal Installation.

\*35800 CV Same as 35800 AV, except prepared for Pedestal Installation.

\*35800 CX Same as 35800 AX, except prepared for Pedestal Installation.

\*35800 CY Same as 35800 AY, except prepared for Pedestal Installation.

35800 DQ Same as 35800 BQ, except prepared for Pedestal Installation.

35800 DR Same as 35800 BR, except prepared for Pedestal Installation.

\*35800 DV Same as 35800 BV, except prepared for Pedestal Installation.

35800 DX Same as 35800 BX, except prepared for Pedestal Installation.

35800 DY Same as 35800 BY, except prepared for Pedestal Installation.

#### NEEDLES

Each UNION SPECIAL needle has both a type number and a size number. The type number denotes the kind of shank, point, length, groove, finish and other details. The size number, stamped on the needle shank, denotes the largest diameter of the blade measured in thousandths of an inch, midway between the shank and the eye. Collectively, the type number and the size number is the complete symbol.

Selection of proper needle size should be determined by the size of thread used. Thread should pass freely through the needle eye in order to produce a good stitch formation.

Standard needle for Styles 35700 AK, AM, AN, CK, CM, CN is Type 108 GHS. It is a round shank, round point, extra short, double groove, struck groove, ball eye, spotted, ball point, chromium plated and is available in sizes 070/027, 075/029, 080/032, 090/036, 100/040, 110/044, 125/049.

Standard needle for Styles 35700 AL, BS, CL, DS and all Class 35800 is Type 128 GLS. It is a round shank, round point, short, double groove, struck groove, oversize ball eye, one step increase, short blade - 1/8 inch less than standard, width of eye and grooves undersize - one step reduction, spotted, ball point, chromium plated and is available in sizes 090/036, 100/040, 110/044, 125/049.

The machine styles listed in this catalog are equipped with the types and sizes of needles as shown in the following chart:

<u>MACHINE STYLE</u>	<u>NEEDLE TYPE</u>	<u>NEEDLE SIZE</u>
35700 AK, CK	108 GHS	080/032
35700 AM, AN, CM, CN	108 GHS	090/036
35700 AL, BS, CL, DS	128 GLS	100/040
35800 (All Styles)	128 GLS	110/044

\*DISCONTINUED - In most instances, component parts can be ordered for customer repair.

## NEEDLES (Continued)

To have needle orders promptly and accurately filled, an empty package, a sample needle, or the type and size number should be forwarded. Use description on label. A complete order would read: "1000 Needles, Type 108 GHS, Size 080/032".

## ORDERING OF REPAIR PARTS

### ILLUSTRATIONS

The arrangement of this catalog is to facilitate easy and accurate ordering of Class 35700 and 35800 replacement parts.

Exploded view plates cover the Standard Styles listed in this catalog. Each plate presents a sector of the machine, parts being aligned as in their assembled position. Small keyline views show by a blackened area exactly where the parts being discussed fit in the assembled machine. On the page opposite the illustration will be found a listing of the parts with their part numbers, descriptions and the number of pieces required in the particular view being shown.

Numbers in the first column are reference numbers only, and merely indicate the position of the part in the illustration. Reference numbers should never be used in ordering parts. Always use the part number listed in the second column. Each exploded view plate carries a reference number for each part for sale.

Sub-assemblies, which are sold complete, or by separate part, are in a bracket or a solid line box on the exploded view plate. Component parts of sub-assemblies, which can be furnished for repairs, are indicated by indenting their descriptions under the description of the main sub-assembly. Example:

23	29101 G	Feed Lift, Feed Rocker and Looper Avoid Eccentric Assembly, for Styles 35700 AL, CL, BS, DS and all Class 35800 -----	1
24	22587 E	Screw-----	4
25	22764	Screw-----	1
26	88	Screw-----	1

It will be noted in the above example that the eccentric and bearing are not listed. The reason is that replacement of these parts individually is not recommended, so the complete sub-assembly should be ordered.

In those cases where a part is common to all of the machines covered by this catalog, no specific usage will be mentioned in the description. However, when the parts for the various machines are not the same, the specific usage will be mentioned in the description and, if necessary, the difference will be shown in the illustration.

At the back of the book will be found a numerical index of all the parts shown in this book. This will facilitate locating the illustration and description when only the part number is known.

## IDENTIFYING PARTS

Where construction permits, each part is stamped with its part number. On some of the smaller parts, and on those where construction does not permit, an identification letter is stamped in to distinguish the part from similar ones.

Part numbers represent the same part, regardless of catalog in which they appear.

**IMPORTANT! ON ALL ORDERS, PLEASE INCLUDE PART NAME AND STYLE OF MACHINE FOR WHICH PART IS ORDERED.**

## USE GENUINE NEEDLES AND REPAIR PARTS

Success in the operation of these machines can be secured only with genuine UNION SPECIAL Repair Parts as furnished by the Union Special Corporation, its subsidiaries and authorized distributors. They are designed according to the most approved scientific principles, and are made with the utmost precision. Maximum efficiency and durability are assured.

### TERMS

Prices are strictly net cash and are subject to change without notice. All shipments are forwarded f.o.b. shipping point. Parcel Post shipments are insured unless otherwise directed. A charge is made to cover the postage and insurance.

### OILING AND THREADING

The oil has been drained from the machine before shipping, and the reservoir must be filled before beginning to operate. Use a straight mineral oil with a Saybolt viscosity of 90 to 125 seconds at 100° Fahrenheit.

Oil is filled at the caps "G" and "H" in the accompanying threading diagrams on pages 9, 10 and 11. The level is checked at the two sight gauges "J" and "K". One is located at the front of the cylinder and the other on the right side of the main frame under the foot lifter lever. Maintain the oil level between the red lines of the gauges.

The machine is equipped with a continuous running rotary driven oil pump. The action of the oil can be observed through the lucite windows "L" and "M" in the front and back top covers. When starting a new machine after filling the reservoirs, or when beginning to operate a machine that has been idle for some time, it may be necessary to prime the pump.

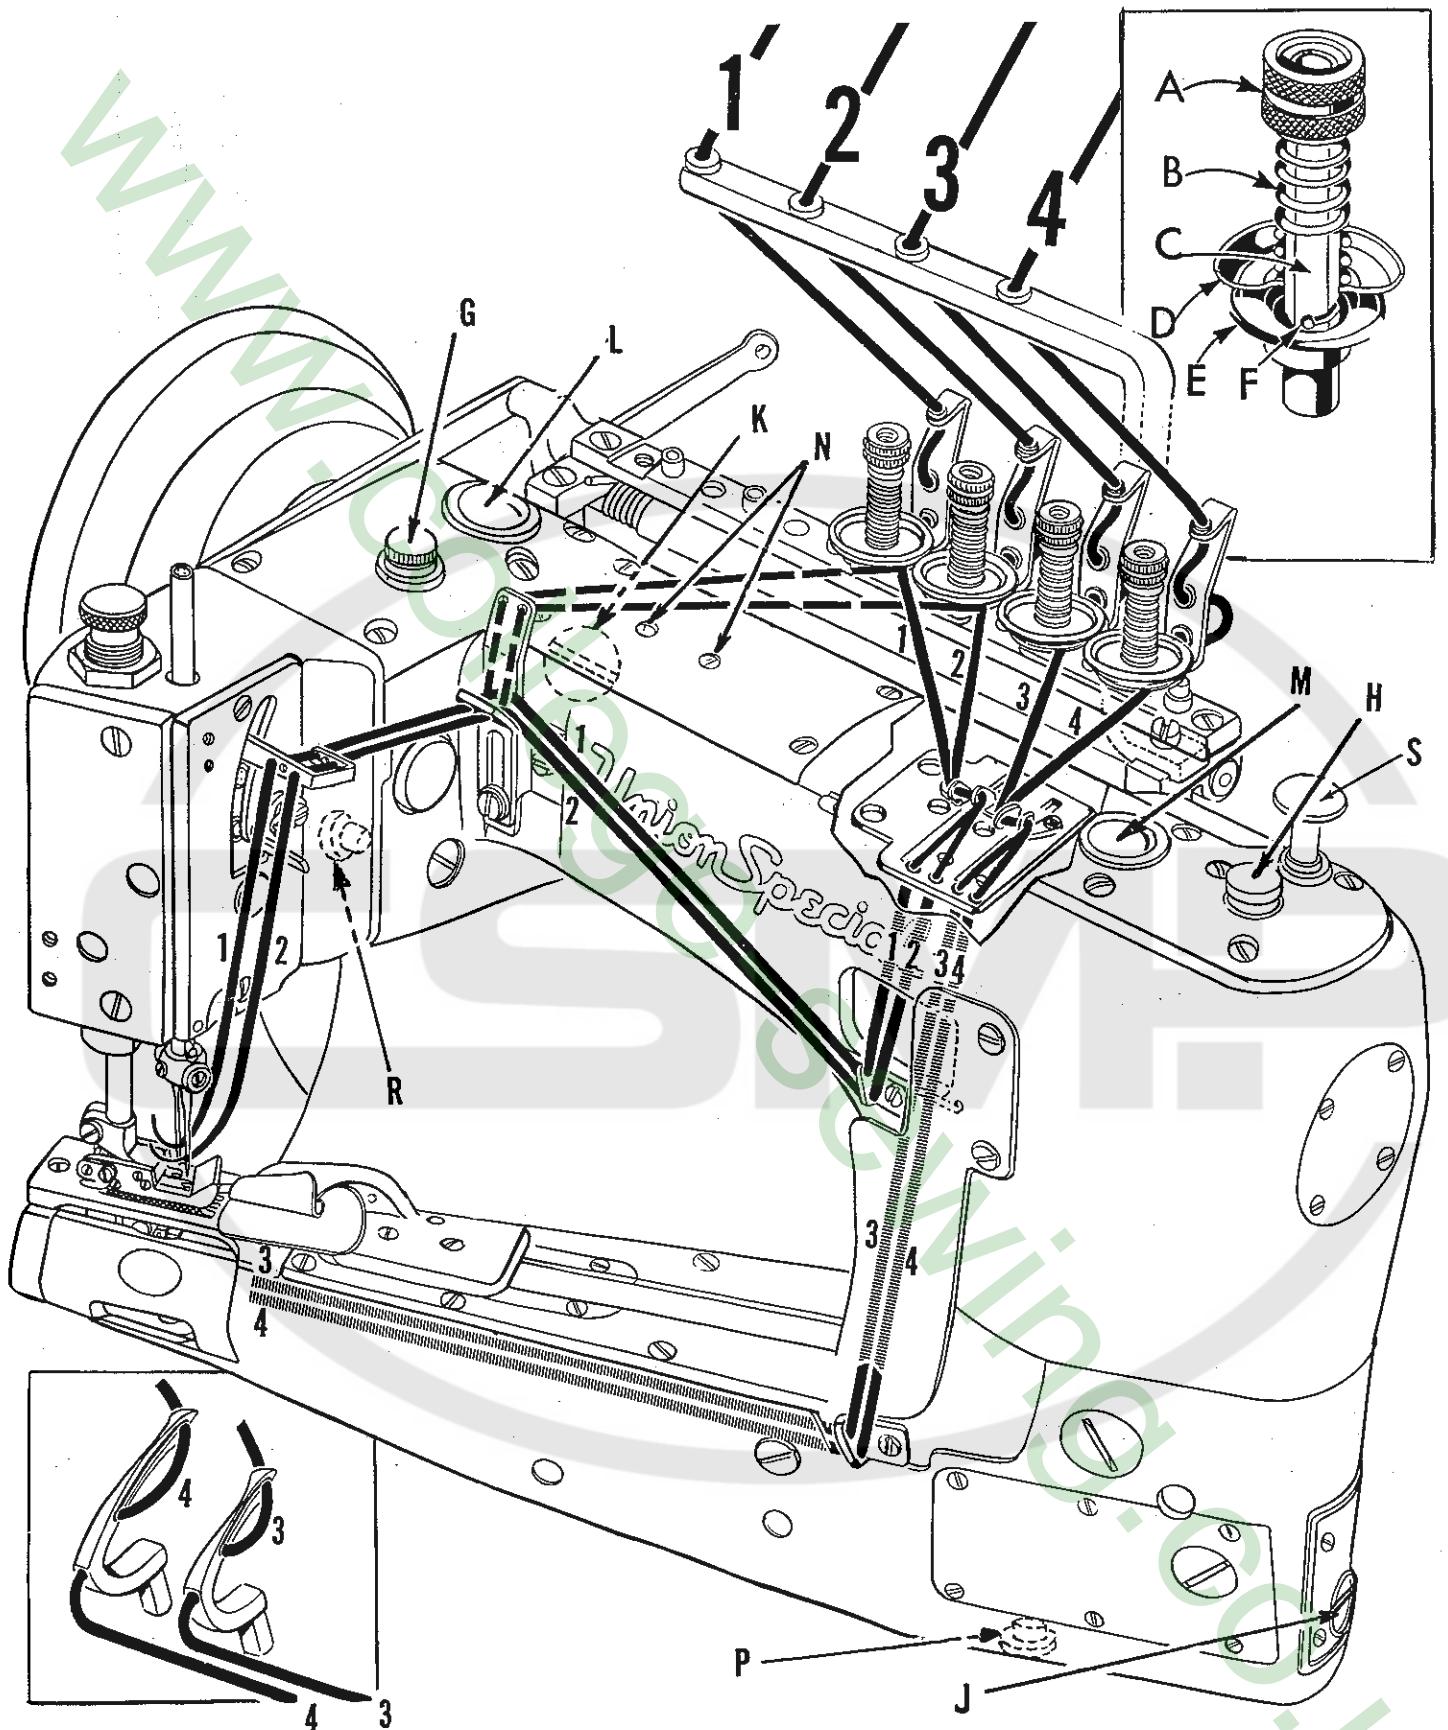

To do this, remove the two plug screws "N". Apply oil from an oil can to these holes and operate machine until bubbling can be observed at the windows. Replace screws. If oil does not bubble when machine is running, the circulating pump is inoperative.

Oil may be drained from the machine at two places, "P" and "R". One plug screw is located in the bottom of the cylinder and the other at the back of the main frame below the handwheel.

The accompanying drawings also show the manner in which machines in Class 35700 and machines in Class 35800 are threaded. Three needle machines in Class 35700 and two needle machines in Class 35800 are threaded in substantially the same manner. Refer to the threading diagrams on pages 9, 10 and 11 for the threading of a particular machine style.

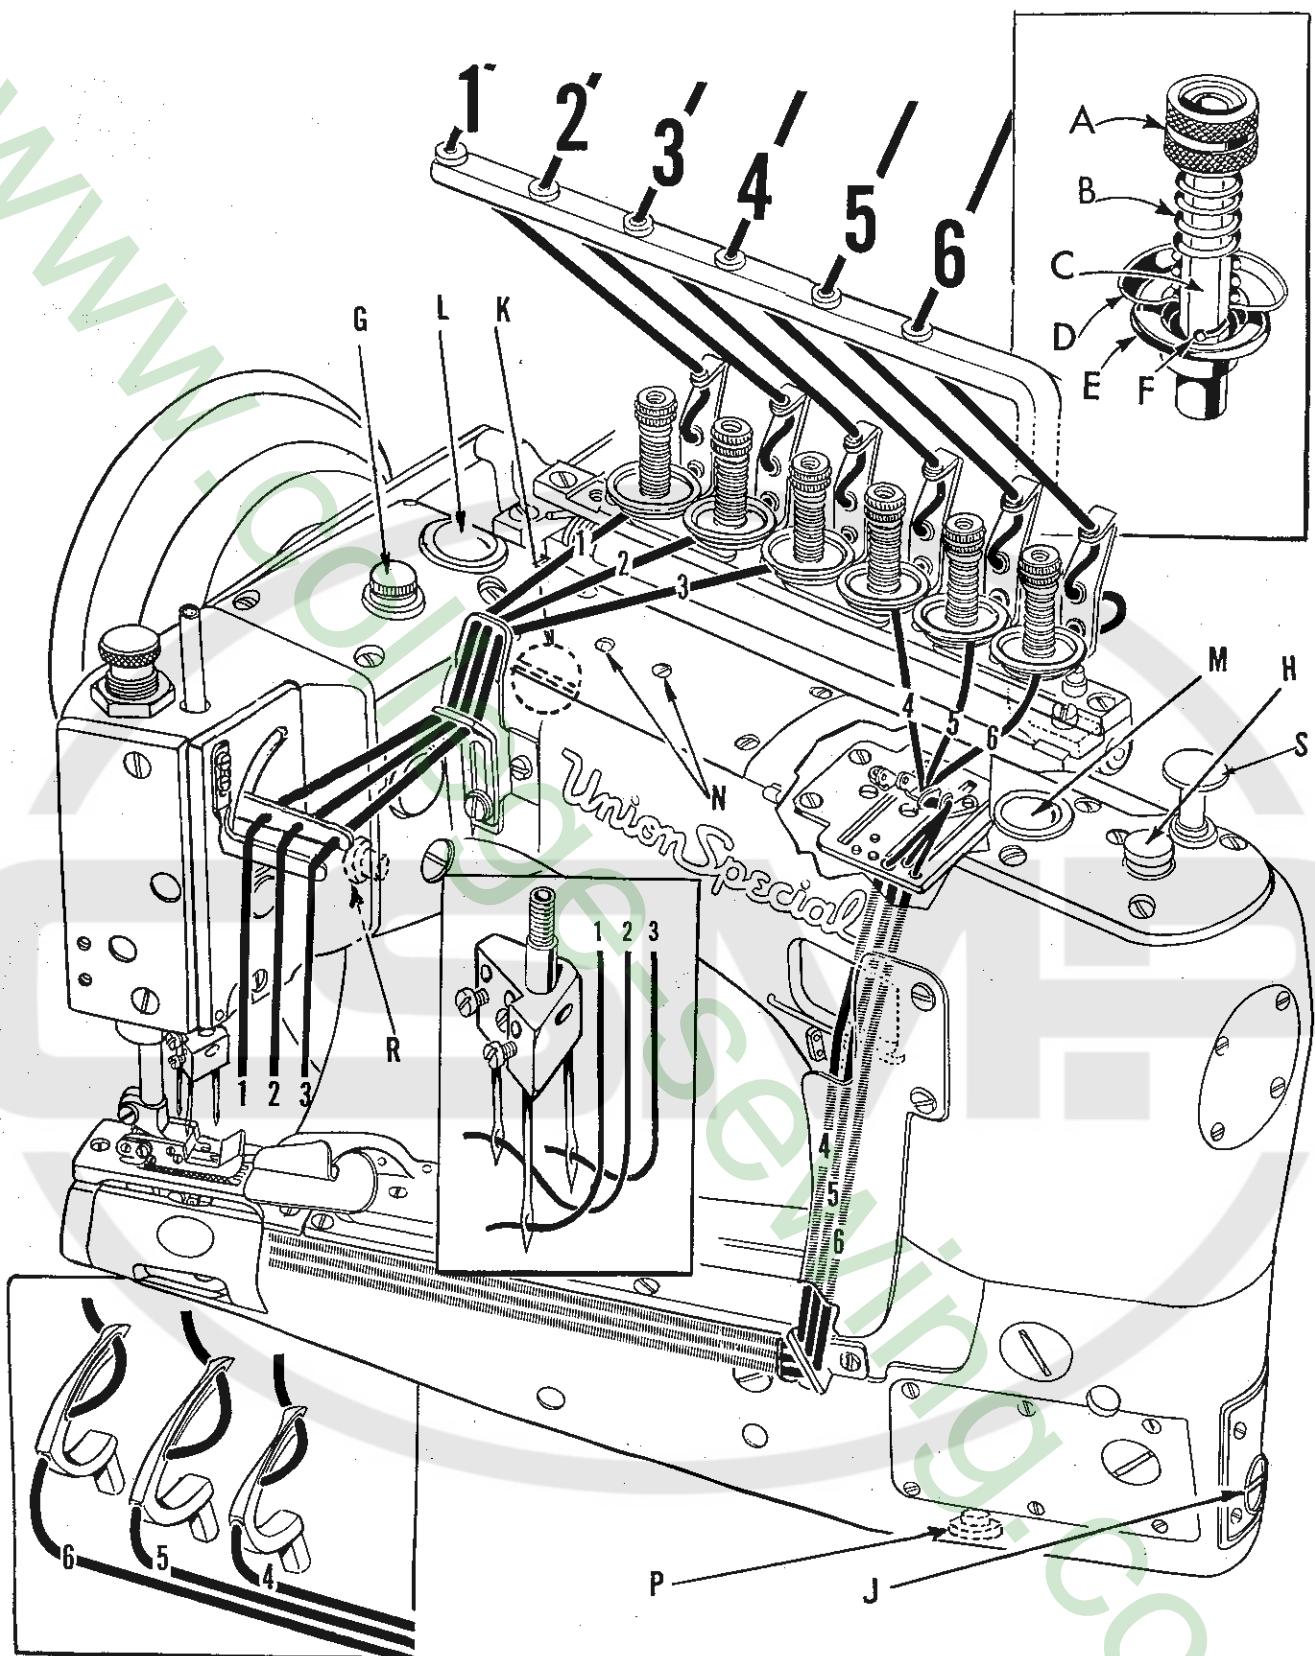

Keep the threads in the slots "F" in the tension posts "C" and between the tension discs "D" and "E". Avoid crossing threads as much as possible.

A convenient means for threading the looper has been provided. When loopers are at the left end of their travel, press the knob "S" and loopers will back out of position, leaving them easily accessible. After threading, push loopers back into position.

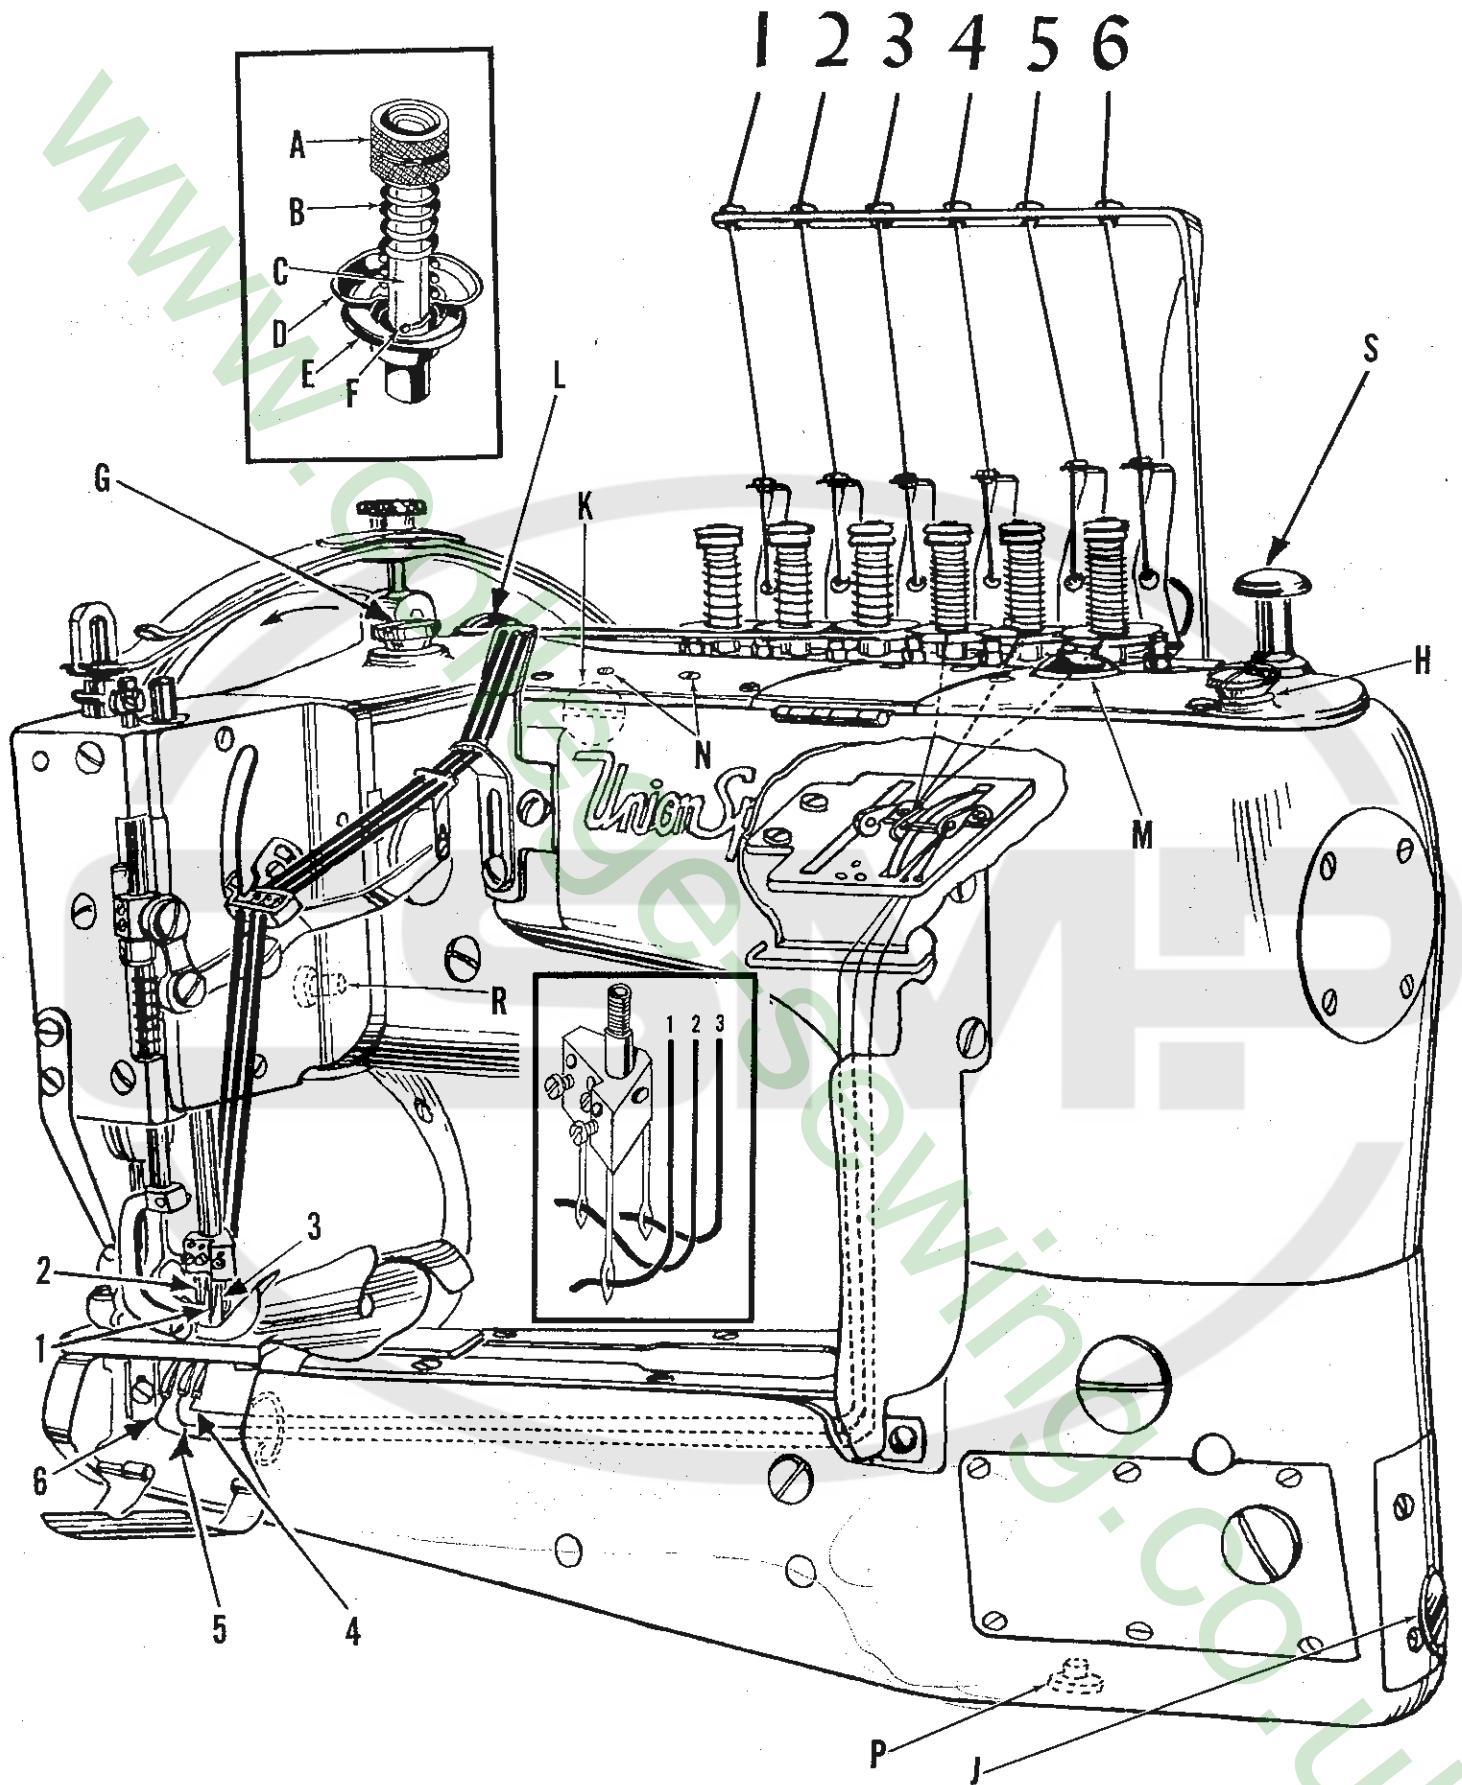

OILING AND THREADING DIAGRAM FOR ALL STYLES IN CLASS 35700, EXCEPT STYLES 35700 BS AND DS.

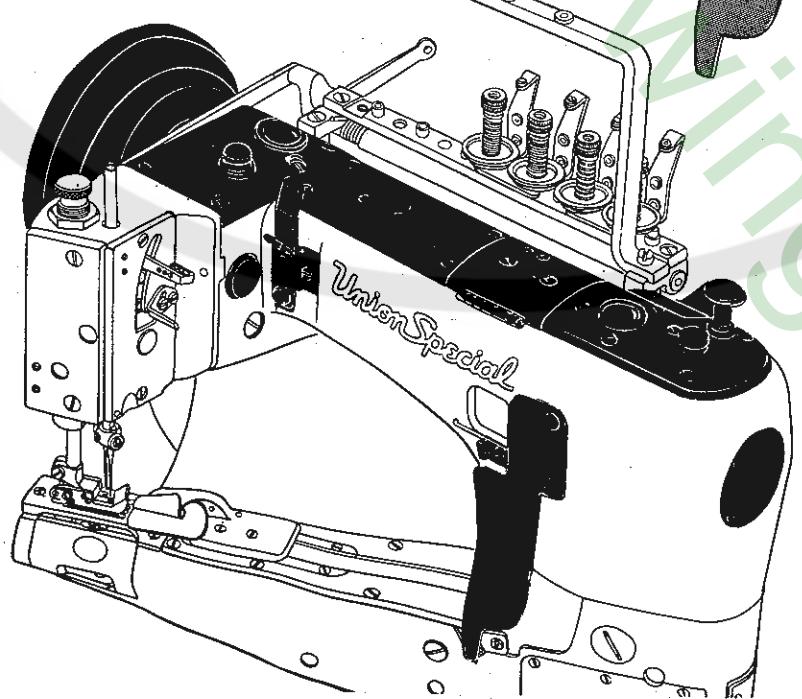

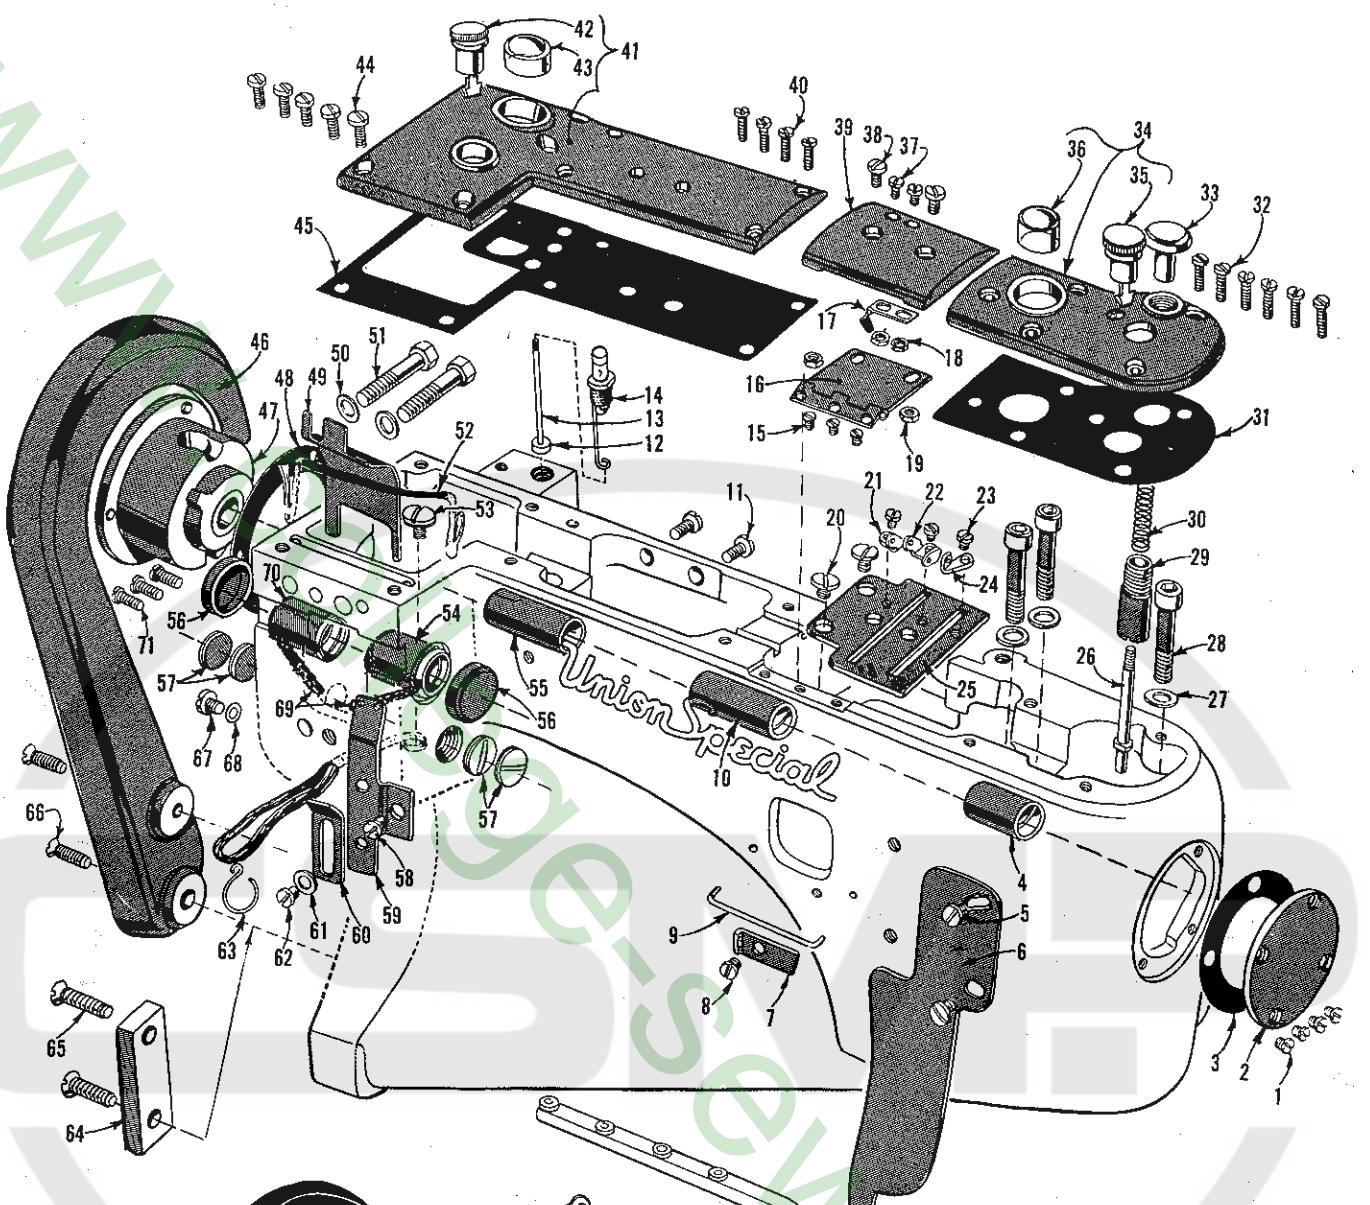

NEEDLE THREADING OF STYLES 35700 AL AND CL ARE INDICATED BY THE BROKEN LINES.

58	51054	Link Pin-----	2
59	77	Screw-----	1
60	35761	Needle Lever Shaft-----	1
61	35815 A	Needle Lever-----	1
62	22596 B	Screw-----	2
63	22729	Screw-----	2
64	35763	Needle Lever Connecting Rod Pin-----	1
65	35862	Needle Lever Connecting Rod-----	1
66	22587 B	Screw-----	2
-	35722 L	Crankshaft, for Styles 35700 AK, AM, AN, CK, CM, CN-----	1
67	35822 T	Crankshaft, for Styles 35700 AL, BS, CL, DS and all Class 35800 except 35800 BQ, BR, DQ, DR-----	1
68	35763 F-625	Needle Bearing, .0625 inch (1.588 mm) diameter-----	28
-	35763 F-626	Needle Bearing, .0626 inch (1.590 mm) diameter-----	28
-	35763 F-627	Needle Bearing, .0627 inch (1.593 mm) diameter-----	28
-	35763 F-628	Needle Bearing, .0628 inch (1.595 mm) diameter-----	28
69	660-202	"O" Ring, for pulley-----	1
*70	35721 K	Pulley Assembly, for Styles 35700 AK, AL, AM, AN, BS, 35800 AC, AD, AV, AX, AY, BV, BX, BY; for use with No. 1 Vee or round belt-----	1
-	35721 D	Pulley Assembly, for Styles 35700 AK, AL, AM, AN, BS, 35800 AC, AD, AV, AX, AY, BV, BX, BY; for use with No. 2 Vee belt-----	1
71	35721 J	Pulley, for 35721 K-----	1
-	35721 C	Pulley, for 35721 D-----	1
72	**22894 H	Spot Screw-----	1
73	**22894 E	Set Screw-----	1
74	35721 G	Spacer Plate-----	1
75	35721 F	Handwheel-----	1
76	22574 A	Screw-----	3
77	35721 H	Clamp Plate-----	1
78	35721 J	Pulley, for Styles 35700 CK, CL, CM, CN, DS, 35800 CC, CD, CV, CX, CY, DV, DX, DY; for use with No. 1 Vee or round belt-----	1
-	35721 C	Pulley, for Styles 35700 CK, CL, CM, CN, DS, 35800 CC, CD, CV, CX, CY, DV, DX, DY; for use with No. 2 Vee belt-----	1
79	**22894 E	Set Screw-----	1
80	**22894 H	Spot Screw-----	1

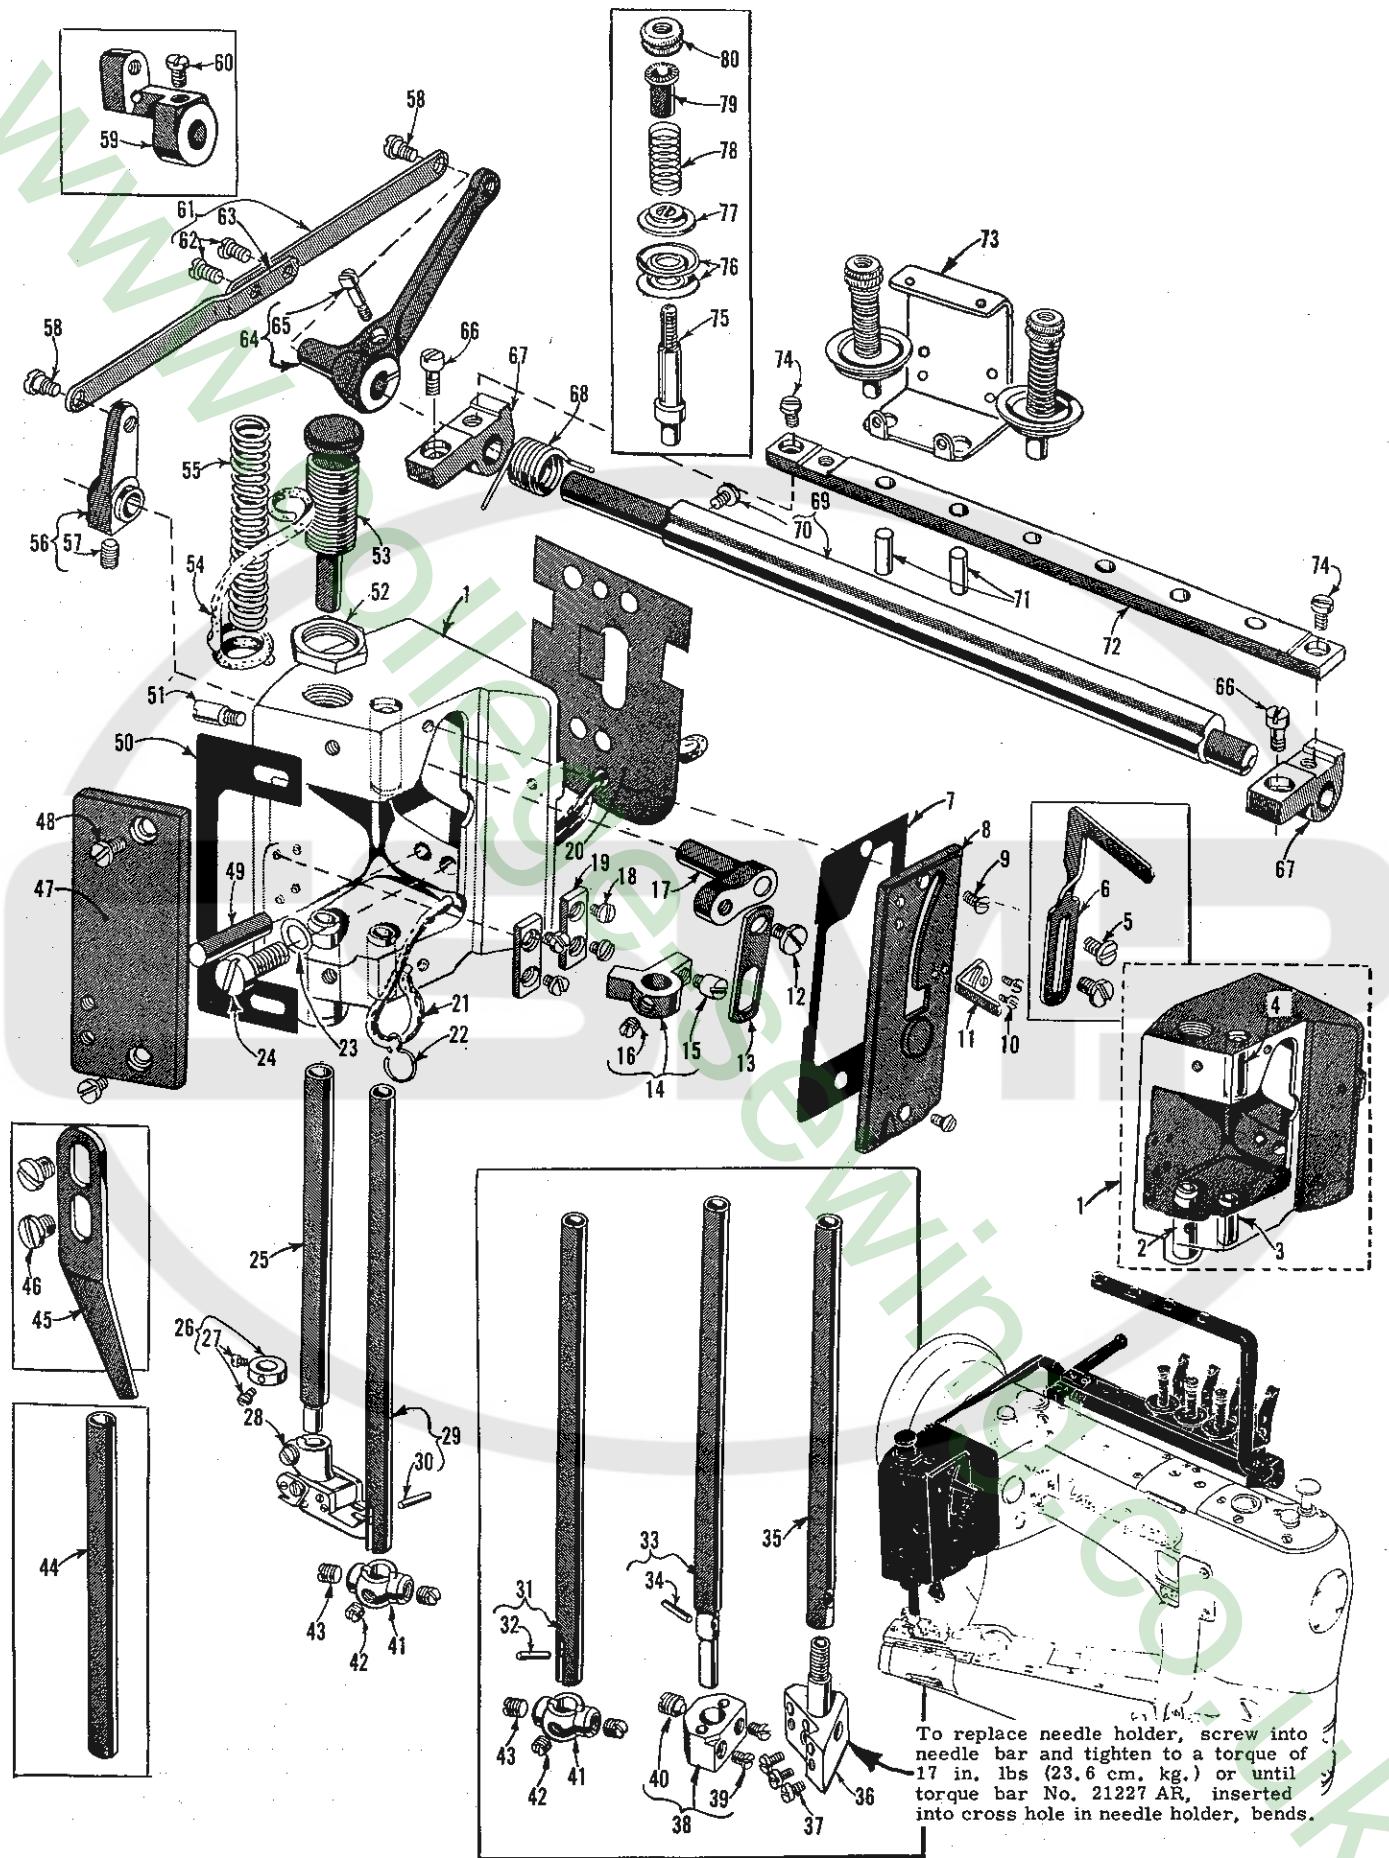

\* DISCONTINUED - Order Component Parts.

\*\* Not Included with pulley No. 35721 C.

DETACHABLE HEAD, PRESSER BARS, NEEDLE BARS

Ref. No.	Part No.	Description	Amt. Req.
1	35829 AA	Detachable Head, for all Styles except 35800 BQ, BR, DQ, DR-----	1
2	35731 F	Presser Bar Bushing, lower-----	1
3	35859 C	Needle Bar Bushing, lower-----	1
4	35859 D	Needle Bar Bushing, upper-----	1
5	22768	Screw-----	2
6	35870 A	Needle Thread Take-up, for Styles 35700 BS, DS and all Class 35800 except BQ, BR, DQ, DR-----	1
7	35889 AD	Gasket, for all Styles except 35800 BQ, BR, DQ, DR-----	1
8	35889 U	Detachable Head Cover, front, for all Styles except 35800 BQ, BR, DQ, DR-----	1
9	22524	Screw-----	2
10	28	Screw-----	2
11	35770 H	Needle Thread Take-up, for Styles 35700 AK, AL, AM, AN, CK, CL, CM, CN-----	1
12	22758 C	Screw-----	1
13	35880 L	Lifter Lever Connection Link-----	1
14	35831 C	Presser Bar Lifter and Guide-----	1
15	402	Screw-----	1
16	22560 B	Screw-----	1
17	35880 N	Presser Bar Lifter Lever-----	1
18	22513	Screw-----	4
19	35731 A	Presser Bar Guide Plate-----	2
20	35889 G	Baffle Plate-----	1
21	WO-3	Wool Yarn-----	as required
22	35897 AW	Oil Wicking Hook-----	1
23	6042 A	Washer-----	1
24	318	Screw-----	1
25	35731 E	Presser Bar, for Styles 35700 AK, AL, AM, AN, BS, CK, CL, CM, CN, DS, 35800 AC, CC-----	1
26	52888 B	Presser Bar Stop Collar-----	1
27	22562	Screw-----	2
28		Presser Foot (Refer to Pages Nos. 35, 37, 39, 41, 43)-----	1
29	35717 E-8	Needle Bar, for No. 8 gauge Styles 35700 AK, AM, CK, CM, marked "DX-8"-----	1
-	35717 E-10	For No. 10 gauge Styles 35700 AK, AM, CK, CM, marked "DX-10"-----	1
-	35717 E-12	For No. 12 gauge Styles 35700 AK, AL, AM, AN, CK, CL, CM, CN, marked "DX-12"-----	1
-	35717 E-16	For No. 16 gauge Styles 35700 AK, AL, AM, AN, CK, CL, CM, CN, marked "DX-16"-----	1
30	50 J-16	Stop Pin-----	1
31	35817 G-12	Needle Bar, for No. 12 gauge Styles 35800 AD, CD, marked "EA-12"-----	1
32	50 J-16	Stop Pin-----	1
33	35817 AY	Needle Bar, for No. 16 gauge Styles 35800 AC, AD, AV, AX, AY, CC, CD, CV, CX, CY and No. 18 gauge Styles 35800 AC, AV, AX, AY, CC, CV, CX, CY, marked "DZ"-----	1
34	50 J-16	Stop Pin-----	1
35	35817 E	Needle Bar, for Nos 7, 8, 9 gauge Styles 35700 BS, DS, 35800 BQ, BR, BV, BX, BY, DQ, DR, DV, DY, marked "DY"-----	1
36	35818 BY-7	Needle Holder, for No. 7 gauge Styles 35700 BS, DS, marked "V-7"-----	1
-	35818 BY-8	For No. 8 gauge Styles 35700 BS, DS, 35800 BQ, BR, BV, BX, BY, DQ, DR, DV, DX, DY, marked "V-8"-----	1
-	35818 BY-9	For No. 9 gauge Styles 35800 BQ, BR, BV, BX, BY, DQ, DR, DV, DX, DY, marked "V-9"-----	1
37	605	Screw-----	3
38	35818 AC-16	Needle Holder, for No. 16 gauge Styles 35800 AC, AD, AV, AX, AY, CC, CD, CV, CX, CY, marked "T-16"-----	1
-	35818 AC-18	Needle Holder, for No. 18 gauge Styles 35800 AC, AV, AX, AY, CC, CV, CX, CY, marked "T-18"-----	1
39	22784 A	Screw-----	2
40	89	Screw-----	1
41	51418-16	Needle Holder, for Nos. 8, 10, 12, 16 gauge Styles 35700 AK, AL, AM, AN, CK, CL, CM, CN and No. 12 gauge Styles 35800 AD, CD, marked "D-16"-----	1
42	89	Screw-----	1
43	98	Screw-----	2
44	35878 G	Presser Bar, for Styles 35800 AD, AV, AX, AY, BV, BX, BY, CD, CV, CX, CY, DV, DX, DY-----	1
45	35831 F	Presser Foot Stop, for Styles 35800 AD, AV, AX, AY, BV, BX, BY, CD, CV, CX, CY, DV, DX, DY-----	1
46	22584	Screw-----	2
47	35889 AC	Detachable Head Cover, left, for all Styles except 35800 BQ, BR, DQ, DR-----	1
48	22528	Screw-----	2
49	664 F-16	Dowel Pin, tapered-----	1
50	35889 AA	Gasket-----	2
51	42 A	Lifter Lever Link Stop Screw, for all Styles except 35800 BQ, BR, DQ, DR-----	1
52	35733 G	Lock Nut-----	1
53	35733 E	Presser Spring Regulator, for all Styles except 35800 BQ, BR, DQ, DR-----	1
54	CL21	Oil Wick-----	1
55	35733 F	Presser Spring, for Styles 35700 AK, AM, AN, CK, CM, CN-----	1
-	35833 K	Presser Spring, for Styles 35700 BS, DS and all Class 35800 except BQ, BR, DQ, DR-----	1
-	61356	Presser Spring, for Styles 35700 AL, CL-----	1
56 to 80		See following page.	

FOOT LIFTER AND TENSION PARTS

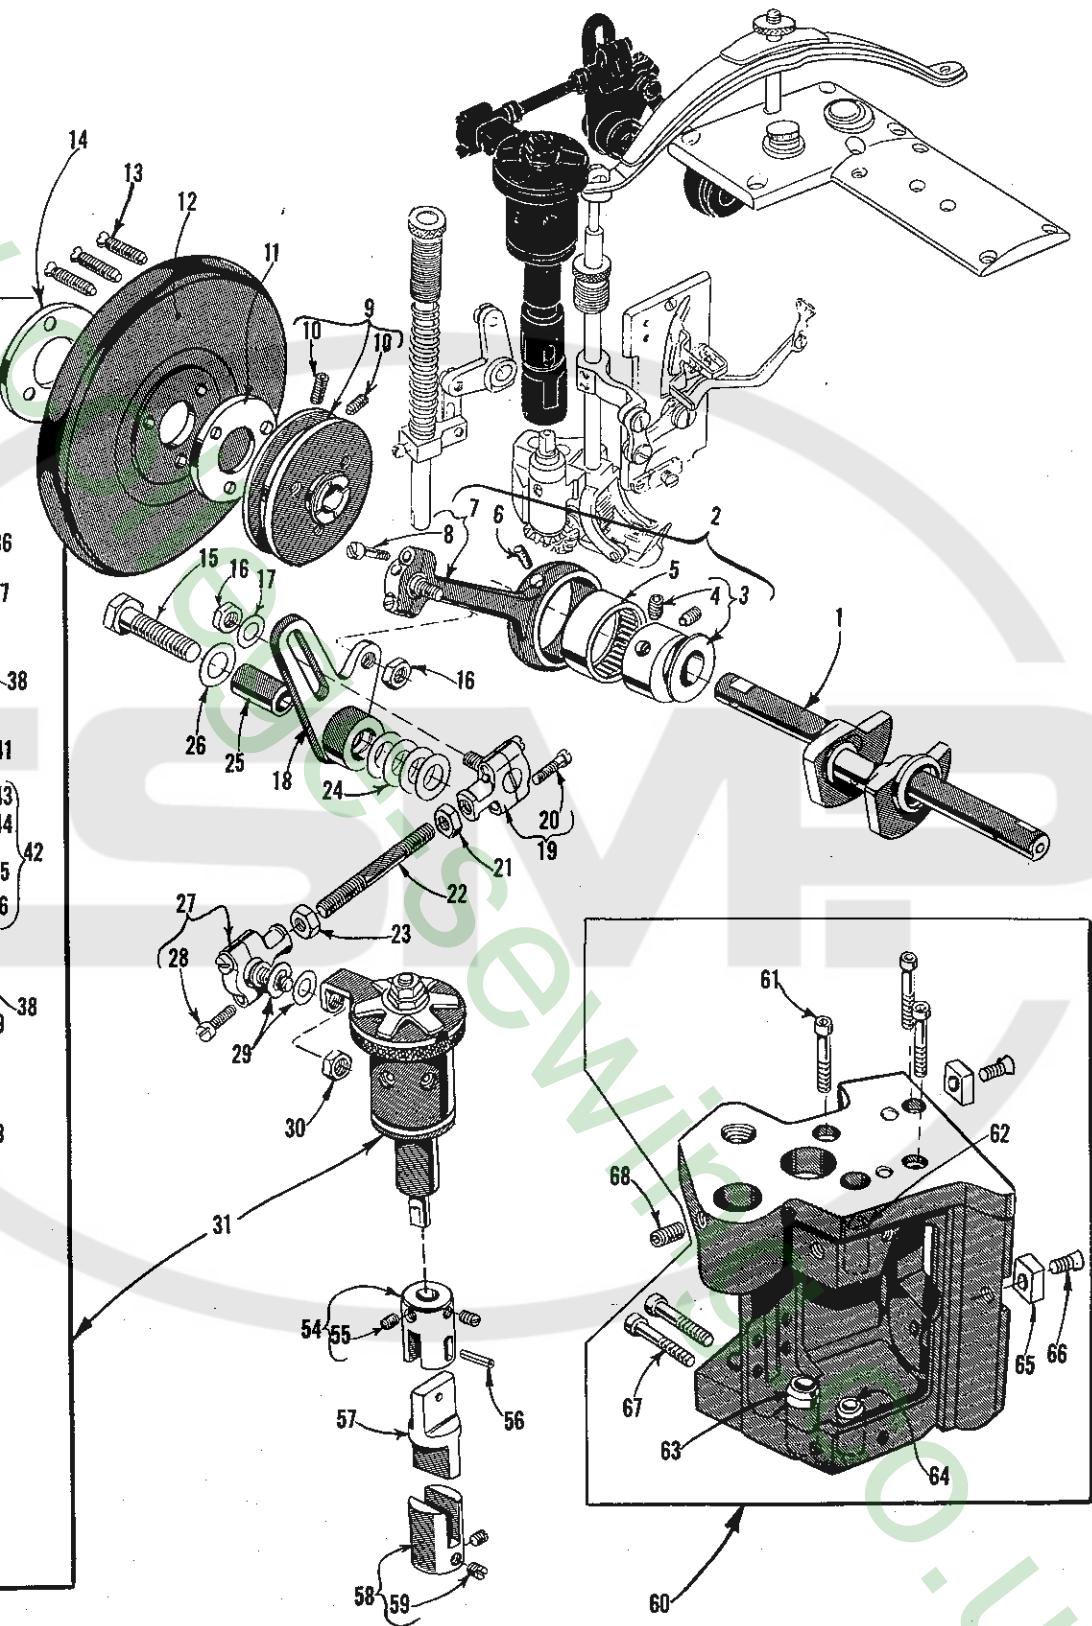

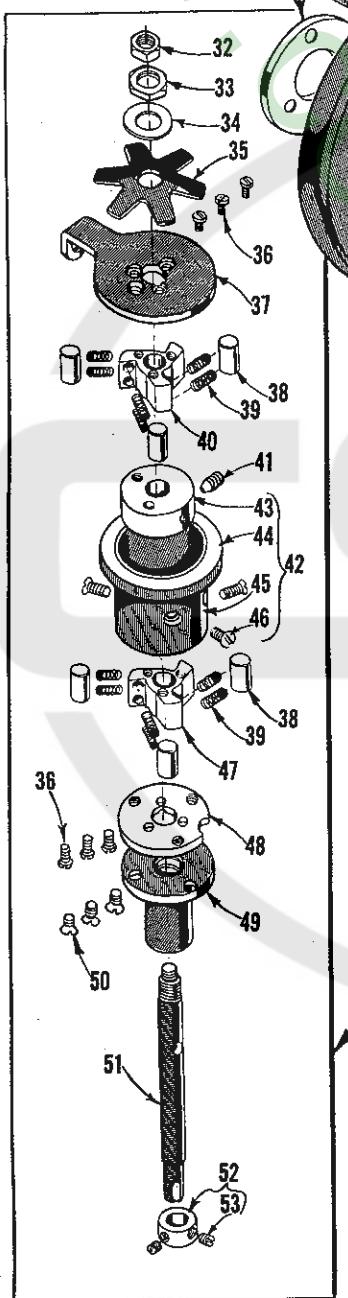

<u>Ref. No.</u>	<u>Part No.</u>	<u>Description</u>	<u>Amt. Req.</u>
1 to 55		See preceding page	
56	35880 M	Lifter Lever Link Connection, for all Styles except 35800 BQ, BR, DQ, DR-	1
57	22894 J	Screw-----	1
58	86	Screw, for table mounted machines-----	2
-	86	Screw, for pedestal machines-----	3

84	35708 AK	Looper, left, for Styles 35700 AK, AM, AN, CK, CM, CN	1
-	35708 AJ	Looper, left, for Styles 35700 AL, CL, marked "AW"	1
85	35884 L	Cylinder Lint Shield and Spring, lower	1
86	35709 AK	Looper, right, for Styles 35700 AK, AM, AN, CK, CM, CN	1
-	35709 AJ	Looper, right, for Styles 35700 AL, CL, marked "AX"	1
87	35848 E	Looper Holder, for right looper on all styles, marked "D"	1
88	22562 A	Screw	1
89	22564	Screw	1
90	35809 BY	Looper, middle, for Styles 35700 BS, DS, 35800 BQ, BR, BV, BX, BY, DQ, DR, DV, DX, DY, marked "AY"	1
91	35809 AY	Looper, right, for Styles 35700 BS, DS, 35800 AC, AD, AV, AX, AY, BQ, BR, BV, BX, BY, CC, CD, CV, CX, CY, DQ, DR, DV, DX, DY, marked "AV"	1
92	35808 AY	Looper, left, for Styles 35700 BS, DS, 35800 AC, AD, AV, AX, AY, BQ, BR, BV, BX, BY, CC, CD, CV, CX, CY, DQ, DR, DV, DX, DY, marked "AU"	1
93	35848 D	Looper Holder, for middle looper on Styles 35700 BS, DS, 35800 BQ, BR, BV, BX, BY, DQ, DR, DV, DX, DY, marked "C"	1
94	22562 A	Screw	1
95	22564	Screw	1

\*NOTE: Needle bearings in looper drive connection are fitted to mainshaft at assembly, for proper oil clearance. Flange of mainshaft Nos. 35722 AE and 35722 AF, page No. 17, are marked with 1 to 6 lines, denoting proper Group Size of corresponding needle bearing to be assembled. When ordering repair part, order should read 35853 AL (Group#       ), specify number of lines ground into flange of mainshaft.

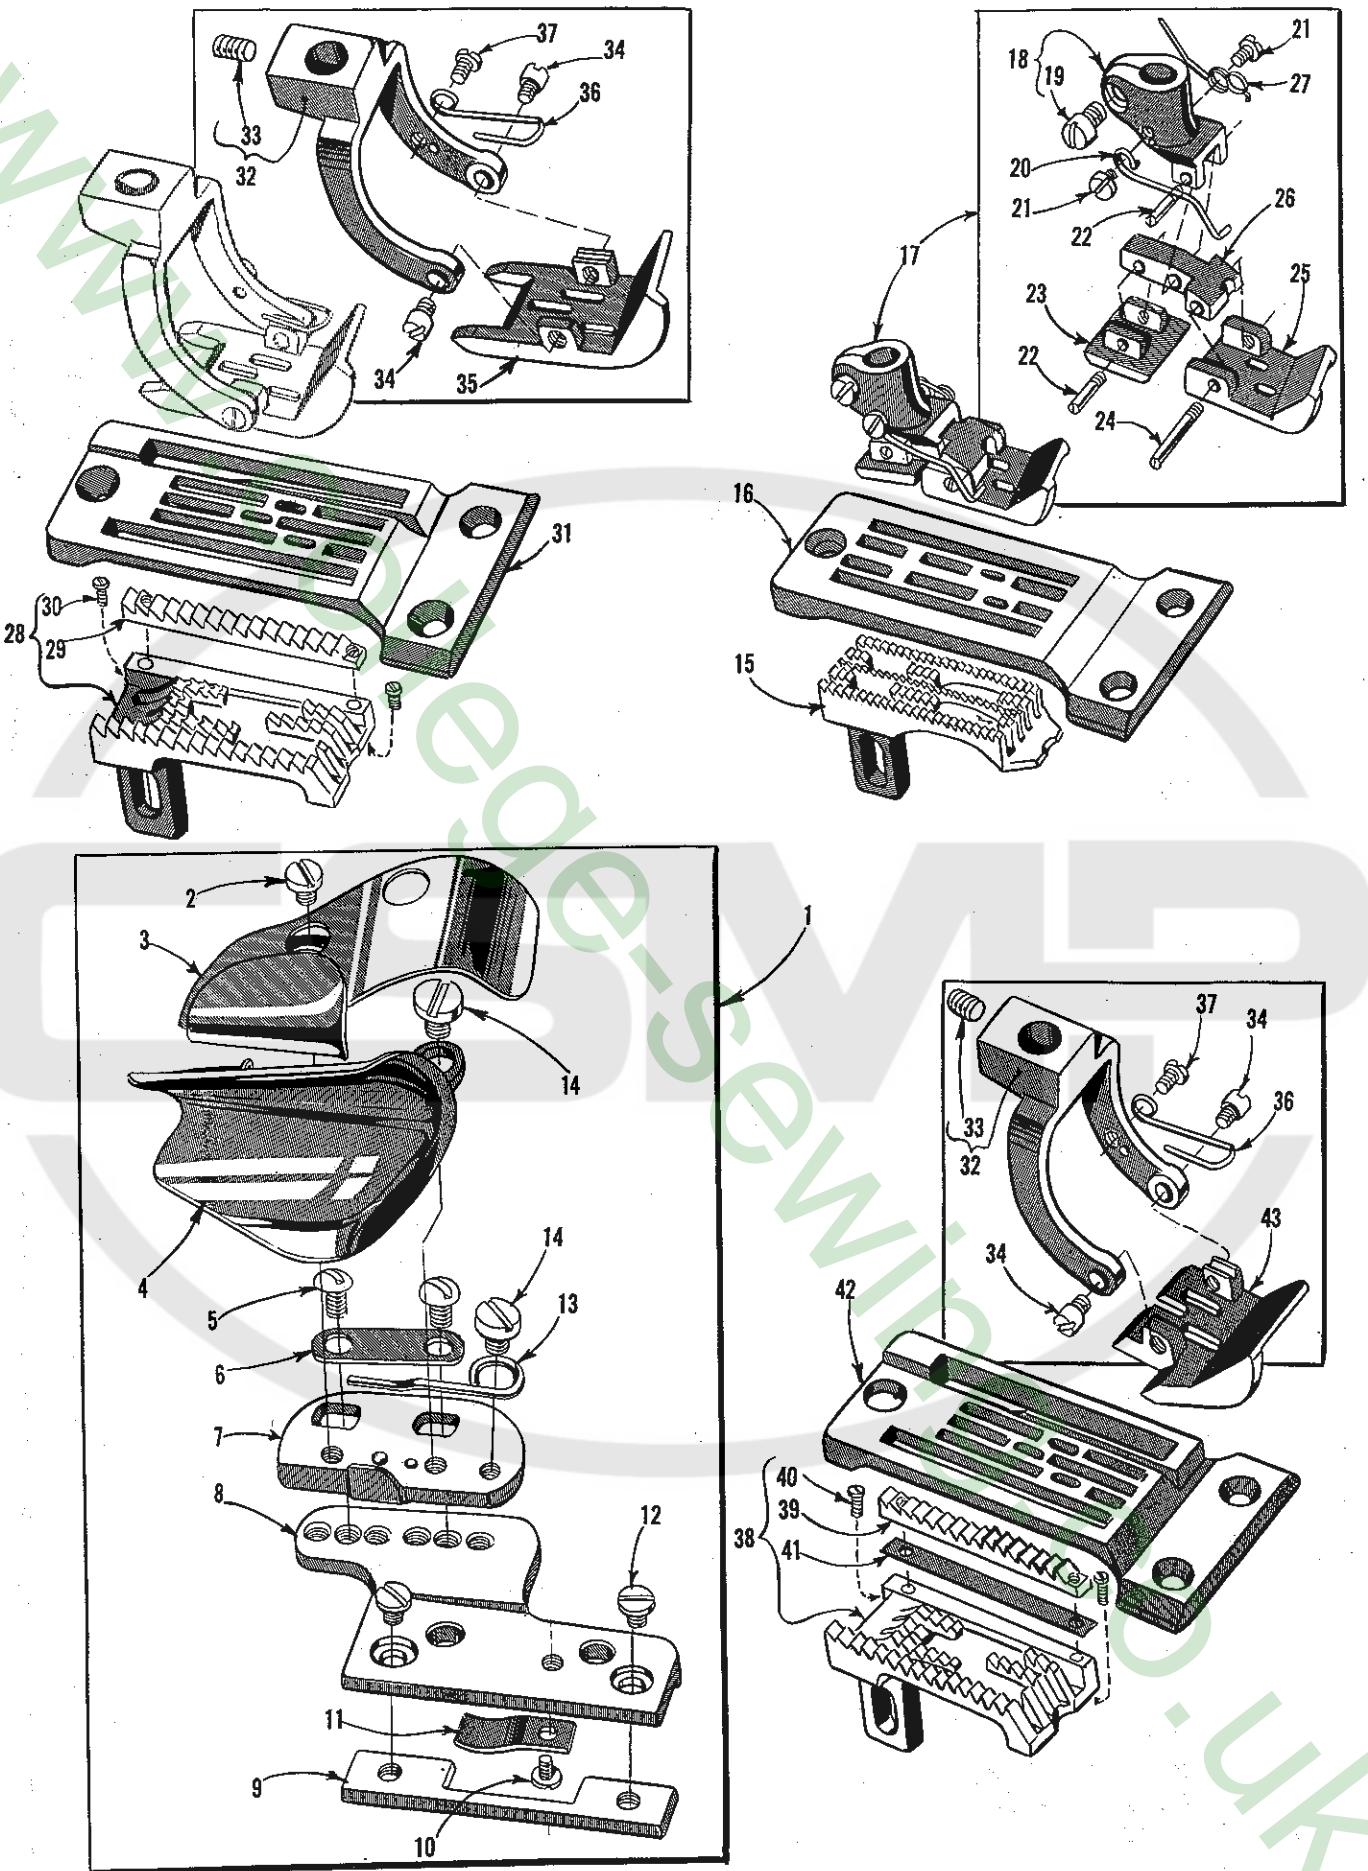

CYLINDER COVERS AND BUSHINGS

FEED DOGS, THROAT PLATES, PRESSER FEET

Ref. No.	Part No.	Description	Amt. Req.
1	35826 BY-8	Feed Dog, for Nos. 8 and 9 gauge 35800 BY, DY, .094 inch step-----	1
2	22738 C	Screw-----	2
3	35895	Shim (as required) -----	1
4	35826	Tooth Section -----	1
5	35828 BY-8	Throat Plate, for No. 8 gauge 35800 BY, DY, .094 inch step, marked "Y-8" -----	1
	35828 BY-9	Throat Plate, for No. 9 gauge, .094 inch step, marked "Y-9" -----	1
6	35820 BY-8	Presser Foot, for No. 8 gauge 35800 BY, DY, .094 inch step-----	1
	35820 BY-9	Presser Foot, for No. 9 gauge, .094 inch step -----	1
7	35830 BY-8	Bottom, front, for No. 8 gauge -----	1
	35830 BY-9	Bottom, front, for No. 9 gauge -----	1
8	22845 A	Screw-----	6
9	35830 C	Yoke-----	1
10	35830 AE	Yielding Section-----	1
11	35830 Z	Bottom, rear-----	1
12	22799 L	Set Screw -----	1
13	22561	Screw-----	1
14	35830 D	Yielding Section Spring -----	1
15	35830 F	Adjusting Nut -----	1
16	35830 H	Equalizing Spring, rear-----	1
17	73 A	Screw-----	2
18	35830 M	Shank, marked "AC" -----	1
19	91 D	Clamp Screw-----	1
20	35830 N	Spring -----	1
21	22599	Screw-----	1
22	35830 K	Equalizing Spring, front -----	1
23	35826 BX-8	Feed Dog, for Nos. 8 and 9 gauge 35800 BX, DX, .070 inch step-----	1
24	22738 C	Screw-----	2
25	35895	Shim (as required) -----	1
26	35826 A	Tooth Section -----	1
27	35828 BX-8	Throat Plate, for Nos. 8 gauge 35800 BX, DX, .070 inch step, marked "AA-8" -----	1
	35828 BX-9	Throat Plate, for No. 9 gauge, .070 inch step, marked "AA-9" -----	1
28	35820 BX-8	Presser Foot, for No. 8 gauge 35800 BX, DX, .070 inch step-----	1
	35820 BX-9	Presser Foot, for No. 9 gauge, .070 inch step -----	1
29	35830 BX-8	Bottom, front, for No. 8 gauge -----	1
	35830 BX-9	Bottom, front, for No. 9 gauge -----	1
30	22845 A	Screw-----	6
31	35830 C	Yoke-----	1
32	35830 AE	Yielding Section-----	1
33	35830 J	Bottom, rear-----	1
34	22799 L	Set Screw -----	1
35	22561	Screw-----	1
36	35830 D	Yielding Section Spring -----	1
37	35830 F	Adjusting Nut -----	1
38	35830 H	Equalizing Spring, rear-----	1
39	73 A	Screw-----	2
40	35830 M	Shank, marked "AC" -----	1
41	91 D	Clamp Screw-----	1
42	35830 N	Spring -----	1
43	22599	Screw-----	1
44	35830 K	Equalizing Spring, front -----	1

**THREAD STAND PARTS**

## MISCELLANEOUS ACCESSORIES

<u>Ref. No.</u>	<u>Part No.</u>	<u>Description</u>	<u>Amt. Req.</u>
1	21227 AR	Torque Rod, for three needle machines-----	1
2	660-240	Thread Tweezers-----	1
3	21201	Screw Driver, 9/64 inch round blade, length over-all 7 3/8 inches -----	1
4	650 X-20	Carriage Bolt, with nut, 5/16-18 thread, 2 1/2 inches long, for electro-drive on pedestal mounted machines--	3
*5	1460 K	Adaptor Plate Stud, for pedestal mounted machines -----	1
*6	1460 J	Electro-Drive Adaptor Plate, for pedestal mounted machines-----	1
7	652-20	Washer, for 22652 E-20 -----	1
8	22652 E-20	Screw, for No. 1460 J -----	3
9	652 B-24	Lock Washer, for No. 22640 M-32 -----	2
10	22640 M-32	Cap Screw, for No. 21233 K-----	2
11	651-16	Nut, for No. 22635-----	2
12	652 B-16	Lock Washer, for No. 22635 -----	2
13	22635	Screw, for switch -----	2
14	21233 K	Switch Box Bracket, for pedestal mounted machines -----	1
15	22807	Screw, for No. 1421-----	3
16	1421	Handwheel, for pedestal mounted machines -----	1
17	1421 A	Handwheel Stud, for pedestal mounted machines -----	1

\* Not furnished with machines, available as extra send and charge item.

PART  
No. 29401C

INSTRUCTIONS FOR INSTALLING CUSHION MOUNTING  
FOR CLASSES 35700 & 35800 MACHINES.

OPER. 1 - INSERT FELT TUBES G60-161 INTO TABLE  
BOARD SO THAT THE TUBE WILL EXTEND  
ABOUT  $\frac{3}{8}$ " BELOW BOTTOM OF BOARD.

OPER. 2 - PLACE FELT WASHER G60-162 OVER  
FELT TUBE SO THAT IT LIES FLAT WITHIN  
COUNTERBORED HOLES.

OPER. 3 - PLACE STEEL WASHER 35895-Q  
ON TOP OF FELT WASHER.

OPER. 4 - INSERT STUD 35895-R IN HOLE  
OF FELT TUBE.

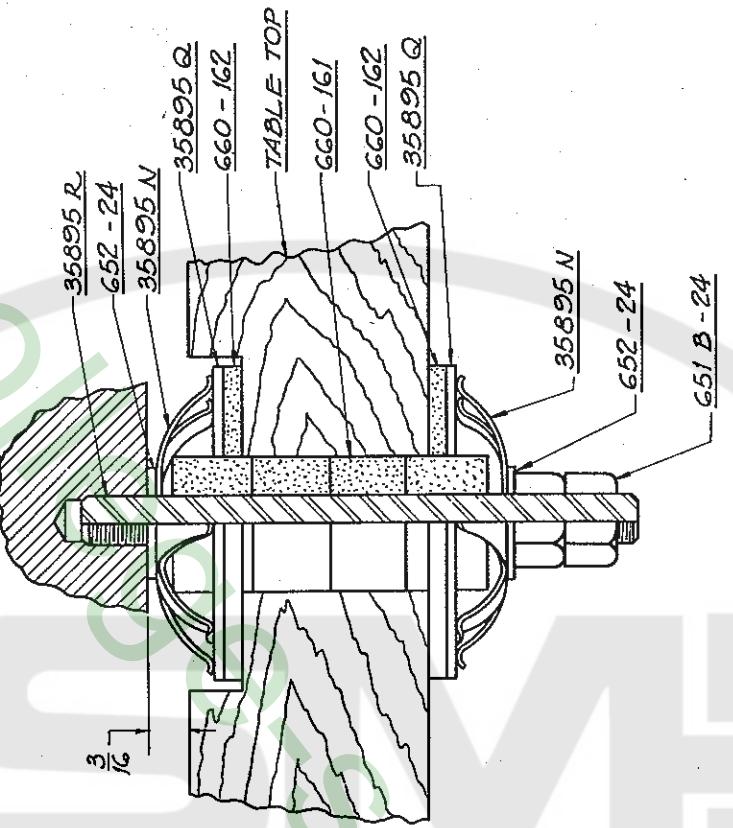

OPER. 5 - SLIDE SPRING 35895-N & STEEL  
WASHER 652-24 ON STUD.

OPER. 6 - PLACE MACHINE OVER STUDS &  
SCREW STUDS INTO BASE OF MACHINE  
TIGHTLY.

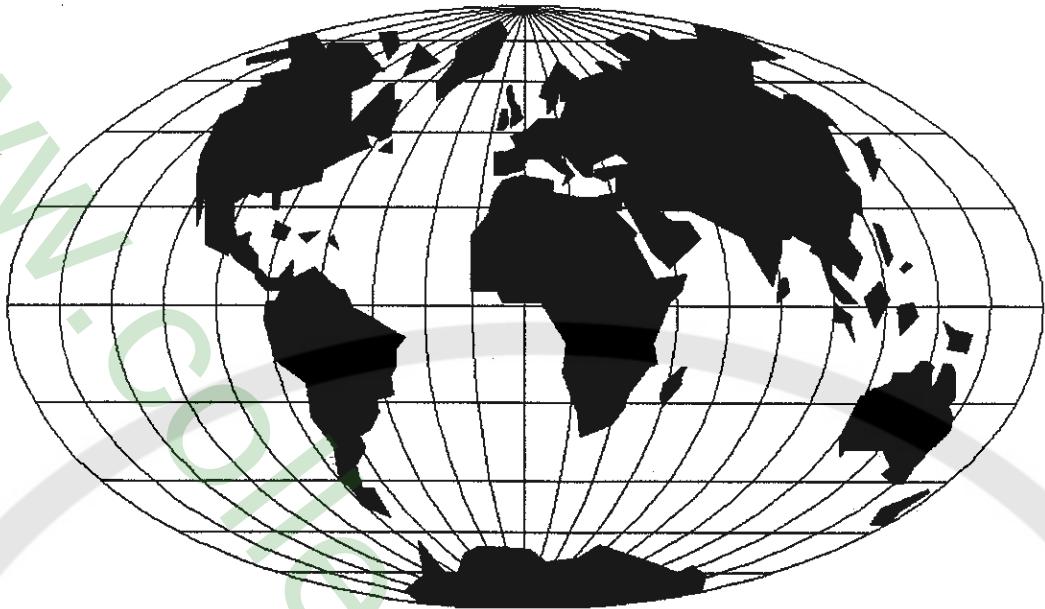

OPER. 7 - REPEAT OPERATIONS 2, 3 & 5 ON  
BOTTOM SIDE OF TABLE BOARD.

OPER. 8 - TIGHTEN NUT 651-B-24 ON STUD TO  
HOLD MACHINE SECURELY & YET ALLOW  
ACTION OF CUSHION MOUNTING & LOCK  
WITH SECOND NUT. THE MACHINE WILL  
CLEAR THE TABLE TOP APPROXIMATELY  
 $\frac{3}{16}$  INCH WHEN INSTALLED.

BOTTOM OF MACHINE BED.

## WORLDWIDE SALES AND SERVICE

Union Special Corporation maintains sales and service facilities throughout the world. These offices will aid you in the selection of the right sewing equipment for your particular operation. Union Special Corporation representatives and service technicians are factory trained and are able to serve your needs promptly and efficiently. Whatever your location, there is a qualified representative to serve you.

Brussels, Belgium  
Charlotte, N.C.  
El Paso, TX  
Hong Kong, China  
Huntley, IL  
Leicester, England  
Lille, France  
Miami, FL  
Milan, Italy  
Möglingen, Germany  
Montreal, Quebec  
Osaka, Japan  
Santa Fe Springs, CA

Other Representatives throughout all parts of the world.
